ineo⁺ 20P

colour & monochrome | 24 ppm

Desktop dynamite

Looks small, **works big**

If your office, workgroup or small department is looking for a powerful but compact printer that will easily fit onto any desktop, the ineo⁺ 20P from DEVELOP is the ideal solution. Not only does it print to professional standards in black and white or colour, it also operates extremely economically. So you get great value for money.

Impressive quality

DEVELOP office printers are renowned for their professional-standard output. This ineo⁺ 20P is no exception. Though designed for the workgroup or small department, the ineo⁺ 20P prints 24 A4 pages a minute – with no compromises on quality. Its print resolution of 600 dpi is enhanced by 4Bit PhotoArt-9600 Contone Technology to deliver an effective resolution of 9,600 dpi, finer dot sizes, more detail and more accurate colours. This makes the ineo⁺ 20P an ideal printer for compelling business reports, persuasive presentations, smart business cards and other business documents.

Economical to run

Cheap desktop printers turn out to be expensive in the long term because a low purchase price is followed by high lifetime running costs. The ineo⁺ 20P, in contrast, offers you extremely low running costs and a price per page that takes some beating. What's more, this printer comes with cost-control functions such as access limitation and volume tracking that help to keep costs down. Add to that the option of professional service and support from your DEVELOP dealer and you've got a great deal with excellent value for money.

Compact **power**

For top-quality business printing it's good to have a powerful partner working to the same high standards as you do – the compact but powerful ineo+ 20P.

High-quality performance

- > Fast and economical printing at 24 ppm in b/w or colour
- > Standard Paper-saving duplex printing with no loss of speed – few can match that
- > Eye-catching print quality for all business documents
- > Powerful ineo processor with PS, PCL and XPS support
- > Low-noise operation – won't disturb your work

Convenient flexibility

- > Prints a wide range of media up to 210 g/m² (e.g. envelopes)
- > Standard USB and Ethernet connectivity – ideal for the office environment
- > Direct printing from your USB stick (optional) saves time and effort
- > Secure printing functionality (optional) keeps documents confidential

ineo+ 20P

ineo+ 20P with additional 500-sheet cassette

Easy integration and control

- > Seamless integration into virtually any office network due to plug-and-play functionality
- > Support for Windows, Mac, Linux and Citrix environments
- > Access limitation and volume tracking functionality to keep your costs under control
- > Time-saving web-based device management for network administrators
- > Free and optional software solutions to optimize your workflow
